Profile

Detail-oriented and tech-savvy operations professional with hands-on experience in system administration, product coordination, and data-driven decision support. Skilled in optimizing workflows, managing cross-functional initiatives, and supporting leadership teams through structured reporting and project execution.

Skills

Software Development — AWS, Bitbucket, Github, and Postman; | *Programming in C++, Java, Python, Flutter, and Kotlin,*
Product/Project Management — Trello, Jira, Confluence, ClickUp, **System Analysis and Design** — System modeling with draw.io, **Graphic Design** — Adobe Photoshop, Illustrator, **Remote Culture** — Collaboration using Slack, Microsoft Teams, Google Workspace, **User Interface Design** — Figma, **Customer Support** — Front App, Odoo

Experience

Senior Operations Analyst Skyned Consults Corporation & Unicollegelink	07.2025 – Present Lagos (Hybrid)
• Led cybersecurity awareness training and coordinated internal audits to strengthen organizational compliance and risk management practices. • Conducted data privacy policy audits and implemented revised internal controls, improving adherence to GDPR and NDPR standards. • Designed and rolled out technical training sessions for cross-functional teams, enhancing technical literacy and adoption of productivity tools. • Partner with the Head of Product and CTO to manage feature rollout documentation, sprint tracking, and release readiness. • Supported quarterly operations reviews and executive reporting, translating data insights into strategic recommendations.	
Technical Support Manager (Volunteer) The unconnected Foundation	01.2025 – 04.2025 Lagos (Remote)
• Worked with a support team of 5+ technicians, achieving a 92% issue resolution rate within 24 hours for internet users across 7 countries. • Led the deployment and maintenance of Wi5stars-powered connectivity infrastructure, impacting over 10,000 students and residents in Rivers State, Nigeria. • Developed a library of 15+ self-service support articles and internal troubleshooting manuals, reducing ticket volume by 35% in 3 months.	
System Administrator Skyned Consults Corporation & Unicollegelink	08.2023 – 06.2025 Lagos (Hybrid)
Achievements for unicollegelink.com 📄 platform: • Conducted a comprehensive evaluation of Unicollegelink functionalities, identifying areas for optimization which enhanced system performance and user satisfaction. • Maintained a high level of data accuracy by resolving over 50 errors on the web app, significantly improving data integrity • Streamlined the onboarding process for new members and partners, reducing onboarding time by 40%, while achieving 100% compliance with requirements.	

- Coordinated and delivered 4 successful projects, including system optimizations and feature enhancements, contributing to the platform's sustained growth.
- Collaborated with the marketing and development teams to execute promotional campaigns, resulting in a 20% increase in user engagement on the platform within 2 months.

Other Achievements:

- Played an integral role in the product management team for 2 additional products (1 fintech and 1 edtech), playing a key role in strategic planning, feature design, and progress tracking.
- Developed and maintained detailed technical documentation for system processes and updates, ensuring continuity and facilitating smoother team onboarding.
- Provided ongoing technical support and training to team members, enhancing operational efficiency.

Technical Support Officer

Skyned Consults Corporation

01.2023 – 08.2023

Lagos

- Successfully troubleshoot technical issues and outages, ensuring minimal disruption to operations
- Conducted extensive research and presented proposals for new projects aimed at improving company processes and efficiency
- Collaborated extensively with the Product Owner and Product Managers to drive enhancements and optimizations for unicollegelink.com, resulting in the acquisition of over 15,000 users within the first 6 months of the product launch
- Assumed the role of system administrator for unicollegelink.com, managing and maintaining the website's functionality and performance

Administrative Assistant

Federal University of Technology

02.2022 – 02.2023

Minna

- Managed administrative tasks for the Head of the Computer Science Department, ensuring smooth operations and efficient workflow.
- Prepared and organized departmental documents, reports, and presentations, maintaining confidentiality and attention to detail.
- Conducted research and collected data to support decision-making and planning processes within the department.

Product Management Intern

Haul247

02.2022 – 04.2022

Lagos (Remote)

- Collaborated closely with a team of 3 project managers and a dedicated software team to successfully develop software solutions for optimizing logistics operations
- Co-facilitated daily stand-up meetings to ensure effective communication, coordination, and alignment of project tasks and goals
- Engaged with project stakeholders to gather requirements, understand project goals, and ensure alignment with business objectives
- Prepared and maintained detailed project documentation, including project plans, schedules, and progress reports, to ensure transparency and accountability throughout the project lifecycle

Research Intern

QHALA (In partnership with Wikimedia Foundation)

11.2021

Ibadan

- Interned under Dr. Aderonke Sakpere
- Conducted comprehensive research to identify local content creators in the target market
- Assisted in the testing phase of an app prototype, focusing on its usability and functionality for both content creators and consumers.
- Played a key role in providing insights and recommendations for improving the app prototype based on user feedback and testing results
